

Barobo, Inc. (www.barobo.com/careers) is a leader in educational robotics for K-12 students learning mathematics and coding. Barobo's [Linkbot](#), [Arduino](#), and [RoboBlockly](#) technologies and [integrated curriculum](#) for all levels of K-12 are specifically designed for classroom and distance learning of math and CS/STEAM and bridging the achievement gap. For at-risk and gifted students alike, Barobo educational technologies and curriculum have been proven to significantly increase their math performance and college readiness.

Barobo is in a high-growth stage and is seeking a Math/CS/STEAM Professional Development (PD) and Partnerships Regional Manager for California.

Responsibilities

- Provide professional development for teachers
- Provide support for schools and school districts using Barobo curriculum and products
- Develop and manage relationships with district administrators, math directors, STEM directors, and principals
- Promote Barobo's products and curriculum to school districts in the region and bordering states via contacts, conferences, and online and in-person demos
- Perform other related duties as assigned in a start-up environment
